

Nikola Novaković

Nationality: Serbian **Date of birth:** 20/12/1971 **Gender:** Male

Phone number: (+381) 642623565 **Email address:** novnik@vin.bg.ac.rs

Whatsapp Messenger: +381 64 2623565 **Website:** ives.edu.rs/CONVINCE

Work: Mike Petrovića Alasa 12-14, 11001 Belgrade (Serbia)

ABOUT ME

Nikola Novaković was born on December 20th, 1971 in Belgrade. He graduated from the Faculty of Physics, University of Belgrade in 2000. He earned his Masters degree in physics in 2003. He defended his Ph.D. thesis in physics in 2010, titled „Ab initio study of properties of alkali, earth alkali, and transition metals hydrides“. Since 2000 he has been employed in the Laboratory for Nuclear and plasma physics at VINČA Institute of nuclear sciences. Since 2005 he is a member of the Local structures and clusters group in the same Laboratory. His graduation work was connected with nuclear physics methods application in solid state physics and material science, his initial research field was the investigation of chemical environment and order using the method of time-resolved perturbed angular gamma-gamma correlations. Besides primary experimental activities, he moved towards complementary research of electronic structures and local environment in intermetallics and semiconducting doped systems, and later in metal hydrides and hydrides in general, using numerical methods based on density functional theory (DFT) and experimental spectroscopy X-rays absorption methods – EXAFS, XANES, and XMCD.

His current areas of scientific interest are theoretical modelling of microproperties of materials with prospect use in energetics and experimental and theoretical investigation of local structures of semiconducting and ceramic materials with prospect use in thermo and optoelectronics.

He is the deputy director of the Laboratory for nuclear and plasma physics, head of the Laboratory for theoretical modeling of materials in the CONVINCE Center of Excellence, and the member of Governing board of the VINČA Institute of nuclear sciences

EDUCATION AND TRAINING

PhD in Physics

University of Belgrade, Faculty of Physics, 2010

City: Belgrade

Country: Serbia

WORK EXPERIENCE

Full research professor

VINČA Institute of nuclear sciences

City: Belgrade

Country: Serbia

- DFT based numerical computations

- material science - metal hydrides

- X ray absorption spectroscopy

- hydrogen storage utilisation - tanks, compressors,...

MANAGEMENT AND LEADERSHIP SKILLS

Management of international projects

International project: SOPHIA – European Research Infrastructure Project – „Metal Doped Rutile TiO₂ as electrode in DSSC“, (2014)

International project: HPC EUROPA2 – „Investigation of TiO₂ surface and MgH₂-TiO₂ interface hydrogen dynamics”, (2012)

International project: I-20110117 EC DESY – HASYLAB, Hamburg, Germany – „Investigation of mechanism of formation and bonding features of local structures in highly doped metal oxides”, (2011)

Management of national projects

Innovation fund of the republic of Serbia, Technology transfer call, project number 1146:

"Design of solid state hydrogen tank for application in stable stationery power supply", 2023

Innovation fund of the republic of Serbia, Proof of Concept call, project number 5437:

"Design of solid state hydrogen tank for application in stable stationery power supply", 2020

National project of the Ministry of Education, Science, and Technological Development, III455012, "Synthesis, processing, and characterization of nanostructured materials for application in energetics, ecology, engineering and biomedicine" - project task management "Theoretical research of hydrogen storage materials"

MEMBERSHIP IN THE PROGRAM COMMITTEES OF CONFERENCES

2018, Member of programme and organizing board of 3rd International Symposium on Materials for Energy Storage and Conversion

2018, Member of Scientific board of EMRS-2018 Spring Meeting - Symposium B "Theoretical searches for innovative materials for energy harvesting and storage"

2012, Member of programme and organizing board: „Joint meeting of 11th Conference of Young Researchers in Field of Material Science and the 1st European Early Stage Researchers Conference of Hydrogen Storage”, 03-05. 12. 2012, Belgrade, Serbia

2011, Member of organizing board: „The 1st Conference of the Serbian Ceramic Society”, 17-18. 03.2011, Belgrade, Serbia

2010, Member of organising and technical board: „The 4th Serbian Congress on Microscopy”, Belgrade, Serbia 11-12. October 2010.

PHD and MSc thesis mentorship

Co-mentor of PhD thesis of Sandra Kurko,

theme: Theoretical and experimental study of changes induced in MgH₂ matrix by B and N ion irradiation, Faculty of Physical Chemistry, Belgrade University, 2015

Mentor of M.Sc thesis of Igor Milovanović.

Theme: Theoretical study of surface effects on hydrogen desorption kinetics of MgH₂ finished in 2011, Faculty of Physical Chemistry, Belgrade University

Mentor of PhD thesis of Radojka Vujsin

THEORETICAL AND EXPERIMENTAL STUDY OF TiO₂ INFLUENCE ON HYDROGEN SORPTION IN MgH₂/Mg SYSTEM, Faculty of Physical Chemistry, Belgrade University, 2017

Mentor of PhD thesis of Bojana Paskaš Mamula, theme: Electronic structure and topological analysis of charge density topology of metal-hydride systems with NaCl and rutile crystal structure, Faculty of Physics, Belgrade University, 2017
Theme: Theoretical and experimental study of changes induced in MgH₂ matrix by B and N ion irradiation, Faculty of Physical Chemistry, Belgrade University, 2015

Mentor of M.Sc thesis of Igor Milovanović.

Theme: Theoretical study of surface effects on hydrogen desorption kinetics of MgH₂ finished in 2011, Faculty of Physical Chemistry, Belgrade University

·Mentor of PhD thesis of Radojka Vujasin, THEORETICAL AND EXPERIMENTAL STUDY OF TiO₂ INFLUENCE ON HYDROGEN SORPTION IN MgH₂/Mg SYSTEM, Faculty of Physical Chemistry, Belgrade University, 2017

Mentor of PhD thesis of Bojana Paskaš Mamula, theme: Electronic structure and topological analysis of charge density topology of metal-hydride systems with NaCl and rutile crystal structure, Faculty of Physics, Belgrade University, 2017

SOCIAL AND POLITICAL ACTIVITIES

Head of NGO "Hydrogen Initiative of Serbia"

[Jasenova 10, 11001 Belgrade Serbia]

Non profit organisation "Hydrogen Initiative of Serbia" was founded in 2016 with the goal of promoting and raising public awareness regarding pros and cons of emerging zero carbon future based on hydrogen economy.
